

SP 23.2 Hazardous, Controlled, and Special Materials

NOTE: When this SP is approved, SI 23.2 will be deleted because it's content is incorporated here.

Substantive changes made for the 3-30-06 revision:

1. Incorporates the content of SI 23.2 resulting in the following additions to SP 23.2:
 - a. Adds "Controlled Substances" and "Distribution A" to the DEFINITIONS section.
 - b. Adds the "Distribution A Desk Guide" section to PROCEDURES.
 - c. Adds a bullet about "Distribution A" to the RESPONSIBILITIES section.
2. Deletes the exceptions the SCOPE because the referenced SPs and SIs no longer exist at LBNL.
3. Includes a list of laws and regulations that define "Hazardous Material" and related terms.
4. Mentions 49 CFR Part 172 at the bottom of the definition of "Hazardous Material" and provides a link to the 49 CFR 172.
5. Deletes laboratory-specific instructions for LLNL and LANL because this is an LBNL-only SP.
6. Uses the correct title for LBNL's "Environment, Health, and Safety (EH&S)" organization.
7. Clarifies the role of EH&S in the "Health and Safety" section.
8. Adds the requirement to include the MSDS blurb in subcontracts for hazardous, controlled, and special materials.
9. Adds the requirement to include the "Notice of Radioactive Materials" clause in subcontracts for radioactive materials. This change is reflected in the PROCEDURES and CLAUSES sections.
10. Adds the requirement to include the appropriate Toxic Chemical Release clause in subcontracts as required. This change is reflected in the PROCEDURES and CLAUSES sections.
11. Adds the applicable clauses from Contract 31 in the REFERENCES section.
